Dear Sirs,

Vimetco is a global, vertically integrated producer of primary and processed aluminium with major production assets in China, Romania, and Sierra Leone. Vimetco has an overall aluminium production capacity of about 1 million tonnes per year, being the 7th largest aluminium producer in the world. The company is currently listed on the London Stock Exchange.

We have been working with ADE Professional Solutions since 2007. The consultant has rendered us services on preparation of financial statements in accordance with IFRS for the years ended 31 December 2006 (financial statements were prepared for Initial Public Offering on the London Stock Exchange), 31 December 2007 and 31 December 2008.

The persons responsible for the projects in ADE Professional Solutions are Mr. Dmitry Sklyarov and Mr. Artem Zavertalyuk.

The financial statements were audited by Deloitte Netherlands and Deloitte UK. Despite high complexity and tight deadlines for reporting, the consultant has rendered services in due time and with high quality.

We are happy with the services rendered by ADE Professional Solutions and would fully recommend the firm.

A handwritten signature in blue ink, appearing to read "Alexander Barabanov".

2 September 2010

Alexander Barabanov, ACCA, CIA, CFA Candidate

Head of corporate reporting and business planning department
